Objective

Motivated Electronics and Communication Engineering student with strong interest in embedded systems, IoT, instrumentation, sensors, and intelligent hardware systems. Seeking a Technical Student Internship at NIT Mizoram to gain hands-on research experience, contribute to innovative projects in electronics and communication, and develop practical engineering expertise in a multidisciplinary academic research environment.

Technical Skills

Embedded Systems & Hardware: Arduino, ESP32, Jetson Nano, Embedded C/C++, Microcontrollers.

IoT & Communication: IoT Design, Wireless Sensor Networks, Real-Time Monitoring, Edge Computing.

AI for Embedded Systems: TinyML, Edge AI, CNN Deployment, Model Quantization, On-device Inference.

Programming & Tools: C++, Python, OpenCV (Basics), TensorFlow, PyTorch (Basics), Git

Projects

KisanSahyog – Edge-Based Precision Agriculture System

TinyML, IoT, Embedded Systems

- Designed and developed an intelligent precision agriculture system for targeted pesticide application using plant health monitoring and embedded control systems.
- Built a sensor-integrated pipeline combining RGB image acquisition and real-time plant health assessment
- Deployed a lightweight CNN model on Jetson Nano for edge inference to classify crop infection severity in resource-constrained environments.
- Implemented Variable Rate Technology (VRT) using ESP32 microcontrollers and solenoid valve control.

IoT-Based Smart Environmental Monitoring System

ESP32, Sensors, IoT, Embedded C++

- Developed a real-time environmental monitoring system for measuring temperature, humidity, and air quality using sensor interfacing with ESP32.
- Implemented wireless data transmission for remote monitoring and continuous data acquisition.
- Integrated sensor calibration and filtering mechanisms to improve measurement reliability.
- Designed the system architecture for scalable deployment in smart monitoring applications.

Experience

AI Intern – Infosys Springboard (Virtual)

Aug 2025 – Oct 2025

- Worked on AI-based solution development with focus on implementation, debugging, and iterative improvement.
- Contributed to requirement analysis, feature refinement, and system reliability enhancement.

Leadership & Achievements

- Winner of a hackathon as Team Leader among 500+ participating teams.
- Resource Lead at Insights Club and Technical Co-Lead at Marathi Club
- Scored 100% in 10th Board Examination.

Education

VIT Bhopal University

2024 – 2028 (Expected)

B.Tech in Electronics and Communication Engineering
CGPA: **9.20**
